About UNESCO-IHE

UNESCO-IHE is the largest international graduate water education facility in the world and is based in Delft, the Netherlands. The Institute confers fully accredited MSc degrees, and PhD degrees in collaboration with partner universities. In addition, more than 1,000 Tailor-made and Short courses have been delivered to participants worldwide in the last 10 years. Also, numerous research and capacity development projects are carried out throughout the world.

The mission of UNESCO-IHE is to contribute to the education and training of professionals, to expand the knowledge base through research and to build the capacity of sector organizations, knowledge centres and other institutions active in the fields of water, the environment and infrastructure, particularly in developing countries and countries in transition.

Tailor-made Advice and Training

Training from world renowned experts to upgrade the knowledge and skills within your organization
The advice or training can:
• Be delivered on-site, or at the UNESCO-IHE premises in Delft, or a combination of the two.
• Range from a course lasting a limited number of days, to a more extensive educational programme.
• Be developed for groups of various sizes and can include participants from one or several organizations, sectors or regions.
• Include one to one or one to group advice; lectures; workshops; group work; presentations; role-plays; case studies and study tours to relevant sites throughout Europe or in the region where the training takes place.

Advice or training in:
• Assessment of existing capacity and management tools with recommendations for enhancement.
• Making regulations or setting up financial system.
• Curriculum development and training of trainers.
• A wide range of technical and scientific topics relevant to the water sector.
• Strategic planning and advice on all aspects of water management and other water related issues.

For which organizations?
• Academia / knowledge centres: Universities and research institutes active in water or related sectors.
• Public sector: Ministries, municipalities, public water operators, river basin organizations and local/regional water authorities.
• Private Sector: Water sector institutions and private water operators.
• Non-profit organizations working in the field of water.

Some examples of Tailor-made training:
River Basin Planning and Management, India
Training of staff from Madhya Pradesh Water Resources Department throughout one year. Training covered River Basin Planning and Management and preparation of River Basin Plans for the two selected sub-basins Tons and Sindh sub-basins of India.

Online Course on Natural Wastewater Treatment System
A capacity development project for Sustainable Water Integrated Management (SWIM) partner countries (Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Palestine, Morocco and Tunisia).

Drinking Water Quality & Water Safety Plan
A 10 day course for NV Surinaamsche Waterleiding Maatschappij (SWM), to strengthen institutional capacity in drinking water quality monitoring and assurance.

Our trainers are experienced in a wide range of subjects, including:
• Aquatic Ecosystems
• Coastal Systems, Engineering and Port Development
• Flood Resilience
• Hydroinformatics
• Hydrology and Water Resources
• Knowledge and Capacity Development
• Land and Water Development
• Pollution Prevention and Resource Recovery
• River Basin Development
• Sanitary Engineering
• Water Management and Governance
• Water Supply Engineering

HOW TO PROCEED?

STEP 1
Contact us. We will discuss with you what type of training you require, how we could best deliver such training, an initial price estimate and how to proceed.

STEP 2
We prepare a draft programme with associated costs which we discuss with you. A suitable team of trainers (internal and/or external) is selected based on your needs, your organization and the type of training you require. One academic staff member is assigned to follow up on your requirements.

STEP 3
We finalize an offer and submit it to your organization; an offer letter will be sent with a description of the training and budget. We take care of all necessary follow up: travel, visas, accommodation and other practical arrangements.

STEP 4
Implementation of the Tailor-made advice or training.
